- (a) NSA or LO (or any of them) commit a material breach of this agreement and, in the case of such breach being capable of remedy, does not remedy such breach within thirty (30) days of being given notice in writing specifying the breach and requiring it to be remedied. This deadline can be shortened if circumstances so require.
- (b) Any of the representations and undertakings given by NSA or LO prove to be untrue or inaccurate or are not respected and given full force and effect by or on behalf of NSA or LO;
- (c) circumstances arise (such as, by way of example but not limitation financial situation of LO, war or civil disorder, change in the political environment) such that FIS believes that the successful organisation of the COMPETITIONS and/or the safety thereof would be threatened or jeopardised in any way.

If the cause of termination consists of a breach by NSA or LO of their obligations or undertakings which FIS can remedy by acting itself or by having a third party acting instead of NSA or LO, FIS shall have the right, at its sole discretion, not to terminate this agreement and to have the breach thus remedied. In such case, FIS shall be entitled to claim reimbursement of any appropriate cost incurred in this respect.

NSA or LO may terminate this agreement forthwith by giving written notice to FIS in the event that FIS commits a material breach of this agreement and, in

Freestyle FIS World Cup

the case of such breach being capable of remedy, does not remedy such breach within thirty (30) days of being given notice in writing specifying the breach and requiring it to be remedied. This dead-line can be shortened if circumstances so require.

The right to terminate this agreement shall in any event be without prejudice to any other right or remedy of the parties.

Upon termination of this agreement, FIS shall have the right to arrange at its sole discretion the organisation of the COMPETITIONS at any other venue and in co-operation with any other entities.

25. INDEMNITY

NSA and LO jointly and severally agree to protect, indemnify and hold harmless FIS from and against any and all liabilities, damages, costs and expenses (including reasonable legal fees) whatsoever and from any claims, actions or judgements whatsoever (whether brought or threatened) arising directly or indirectly out of or in any way connected with claims linked with NSA and/or LO's acts or omissions in connection with the organisation and staging of the EVENT (or any part or aspect thereof) where such acts or omissions are in breach of their obligations and duties pursuant to this agreement.

No delay or failure by either party to exercise any of its rights or remedies under this agreement shall operate as a waiver by that party of any such rights or remedies and such rights and remedies may be exercised at any time and as often as the party entitled to such rights or remedies deems fit.

27. ASSIGNMENT

This agreement is personal to the parties and, except as provided otherwise in this agreement, neither party may assign, transfer or sub-licence any of its rights or obligations hereunder without the prior written consent of the other party.

- the undersigned understands that a valid FIS ad hoc accreditation and its clearance is a condition for a valid accreditation at the [EVENT] but does not replace the accreditation issued by [LO] nor give him/her an absolute right to obtain access to any controlled areas. Such access can at any time be restricted or prohibited by specific instructions of the FIS or the [LO], without limitation for safety, capacity or other reasons.
- the undersigned confirms that he/she will attend the [EVENT] in the specified function for which he/she is applying for accreditation and will not use the accreditation for other purposes.

- The undersigned further accepts that he/she may be responsible for any damage or injury he/she is causing. In this respect, he/she understands that, unless he/she is covered by the general civil liability insurance of [LO] as a result of his/her specific function either within the Organising Committee or in

Freestyle FIS World Cup

- application of the ICR, he/she is not covered by such insurance and he/she is, therefore, obliged to have an appropriate civil liability insurance of his/her own.
- The undersigned undertake to behave properly at all times and to abstain from any act or behaviour which interferes with the proper organisation of the [EVENT], including without limitation to use its accreditation for purposes which are in conflict which are in conflict with legitimate activities authorised by FIS and/or the [LO] (e.g. unauthorised commercial or media activities).

Any issue related to the application, grant, denial, withdrawal, validity or content of a FIS ad hoc accreditation is governed by the FIS Rules and, subsidiarily, Swiss law.

Without limitation to the jurisdiction of any body of competent jurisdiction in connection with the application of the FIS Rules to which the undersigned may be submitted, any dispute which is not to be adjudicated in application of specific procedures provided for by the FIS Rules, but which arises between such accredited person and the FIS and/or the organiser, including but not limited to issues linked with application for grant, denial, withdrawal, validity or content of the FIS ad hoc accreditation or claims for damages of either party against the other arising out of occurrences (acts or omissions) linked with the use of such accreditation shall be exclusively settled by arbitration before the Court of Arbitration for Sport ("CAS") in Lausanne in accordance with the CAS rules then in effect.

EXHIBIT 6: FIS CORPORATE IDENTITY & WORLD CUP LOGOS

1. INTRODUCTION

The FIS World Cup represents a “world-programme” and therefore it is necessary to have an international appearance with internationally equal elements. Many FIS World Cup Organising Committees have made great efforts in this regard.

- 1.1. These specifications form the base document for everyone working on the designing. FIS is at your disposal for complementary information, logos, etc.
- 1.2. The FIS Corporate Identity (CI) has to be taken into consideration precisely and corresponding to the specifications for the overall-appearance. This applies for the official title of the FIS World Cup, the FIS logo as well as for the design of all advertising and information means and other print materials e.g. start- and ranking list, accreditation, etc.

2. COMMENTARY TO THE SPECIFIC ITEMS

- 2.1 Title of the event
“FIS” always has to be used in connection with the title “World Cup”, e.g.
 - FIS World Cup
 - Freestyle FIS Ski World Cup
 - Freestyle FIS World Cup
- 2.2 Official FIS Logo / FIS World Cup Logo
As it is all about the FIS World Cup, the FIS logo and the FIS World Cup logo should be assimilated much better. Additionally to the World Cup logo it is certainly possible to create a „FIS World Cup Design“ for the particular site, which can be used as e.g. background for the accreditation or for posters, etc.

3. EVENT SITES / COMPETITION AREA

Attractive presentation elements, which comply with the FIS CI principles should be used in the proven way at the event sites as well as in the competition area.

The FIS logo, the FIS World Cup logo and the official title have to be taken into consideration on the following elements (in addition to the sport-specific elements):

- flags
- signage for the FIS World Cup at the site entry
- large entry-gate at the competition area
- other signage boards

Freestyle FIS World Cup

4. ADVERTISING AND INFORMATION MEDIUM

The FIS logo and the FIS World Cup logo have to be placed on all advertising and information medium as well as the indication to the FIS World Cup.

Basically the FIS logo, the FIS World Cup logo and the official title have to appear in an attractive way on the following:

- Bulletin
- Invitation
- Posters
- Stickers / Car labels
- Start / Intermediate / Result lists and Analyses
- Accreditation
- Sign-boards, Info-overview

Beside an attractive design of the poster through a photo or graphic, the following "logo groups" are to be included:

Official logos (left or right on the top):

- FIS logo
- logo of the NSA
- logo of the Ski Club

FIS World Cup (on the free side on top):

- FIS World Cup logo
- Site and region

Sponsors / partners (on the bottom in a ledge):

- Event sponsors
- FIS World Cup logo
- Data & Timing Partner
- Advertising Agency

FIS.C IN-COMPETITION TESTING

FIS.C.1 In-Competition Tests will be carried out by a specialist Doping Control Agency appointed by FIS at selected FIS World Cup competitions in Alpine Skiing, Cross-Country, Ski Jumping, Nordic Combined, Freestyle and Snowboarding in accordance with the FIS Anti-Doping Rules.

FIS.C.1.1 FIS pays for the Doping Control services carried out by the specialist Agency, whilst the local Organising Committee will be responsible for the logistical costs of the Doping Control Officers on site, including accommodation and meals for two to four persons depending on whether urine and blood Testing will be carried out, as well as the provision of Blood Collection Officials (nurses) for blood testing (see FIS.B.5.2 for details of provision of Blood Collection Officials).

FIS.C.1.2 The specialist Doping Control Agency will identify where In-Competition Testing is carried out and make direct contact with the Organisers in regard to the logistical arrangements.

FIS.C.1.3 All Doping Control Officers and Chaperones require the necessary (neutral) accreditation to access the relevant areas to accompany the athlete.

FIS.C.1.4 At other FIS events, In-Competition Testing organised by the National Anti-Doping Agency (including other FIS World Cup events) and the costs thereof remain the responsibility of the Testing Organisation (National Anti-Doping Agency), the Organising Committee or the National Ski Association depending on the national arrangements.

FIS.C.1.5 FIS will cover the costs of additional doping controls carried out at the FIS World Ski Championships, over and above the requirements for the 6 in-competition controls per event that are paid for by the Organising Committee. Consequently, the Organisers can accurately budget for the testing and related services, whereby FIS can ensure even at short notice that new tests and methods are included in the testing programme of the Championships.
