RULES OF THE FIS POINTS - Edition 2012

These Rules are integral part of the ICR.

1. The Competition

1.1 Requirements

Only races that meet the following requirements will be taken into consideration for FIS points:

- Announcement of the competition in the FIS Calendar
- Strict observance of the International Competition Rules (ICR).
- The competition must be held within the period specified in art. 3.

1.2 Schedule Changes, Shifting and Cancellation

Changes in schedule, i.e. shifting the race to another date, cancellation of competition, or essential changes in the race program must be communicated at once to the FIS

- CH-3653 Oberhofen/Thunersee
Tel +41 (33) 244 61 63, Fax +41 (33) 244 61 71
Email: luessy@fisski.ch
- National Ski Associations
- Technical Delegate (TD) assigned to the competition.

Notice of the change must be provided to the FIS a minimum of 4 days before the first Team Captains Meeting!

1.3 Downhill in Two Runs

Downhill races carried out in two runs must be identified as such in the FIS Calendar, and must be part of international FIS competitions, provided the race course has a vertical drop according to art. 706.2 of the ICR.

In exceptional cases (unfavorable snow or atmospheric conditions) especially if carrying out the original Downhill is jeopardized, it is permitted to conduct the Downhill in two runs, if the Jury so decides.

1.4 Competitions for Juniors

At FIS Calendar competitions for juniors (NJR or JUN) seniors are not allowed to participate. Exception: National Junior Championships

1.4.1 *Change of JUN Competitions*

If a National Ski Association wishes to change a competition originally registered as a Junior (JUN) competition (due to lack of junior entries for example) to a FIS race and therefore enable seniors to earn FIS points, then such a change must be announced to the FIS Office at least 10 days before the competition.

1.5 National Championships

For each National Association's national championships only one race per sex in each discipline is allowed for ladies and men with the relevant category adder for NC and NJC.

1.6 National Junior Race (NJR)

Every NSA will have a fix quota for all NJR competitions depending on its FIS Quota according to the following calculation:

FIS Quota	NJR Quota
10 – 9	5
8 – 7	4

6 – 5 3
Up to 4 2

The Organizing Nation is allowed to start with a maximum of 115 competitors. If there are less than 25 foreign competitors entered or the Organizing Nation doesn't utilize the 115 competitor's quota, the normal FIS quota can be applied taking into consideration the total number of 140 as maximum number of competitors. At Ladies' competitions this precision will be applied only if more than 140 competitors have been entered.

2. The Competitors

2.1 Registration

- Competitors are registered by using the FOU System on the FIS website via the Members Section, <http://www.fis-ski.com/>. Change the status "active" to "inactive" for all those competitors who should not be included on the FIS points list anymore. Competitors with the status "active" will be considered as registered for the coming season. Injured competitors must remain active with the FIS to maintain injury protection.
- All competitors who reached their 15th birthday before the end of the calendar year (Art. 607 of the ICR) will be considered.
Only competitors who have signed the Athletes Declaration as per ICR art. 203.3 may be registered for a FIS License.
The National Ski Association is responsible that they have appropriate insurance and have signed the FIS athlete's declaration.

Active (in the FIS points list). The status "active" remains also if athletes do not participate at a FIS event. Status changes from "active" to "inactive" can only be done between 01.06. and 31.12.

2.1.1 First Registration

At the time of first registration of competitors for the FIS points list, FIS points as well as already notified FIS Code numbers must be controlled precisely. If they are wrong the points and the competitions where they were earned must be indicated.

2.1.2 Code Number

Only competitors (Ladies and Men) with a valid FIS code are admitted to the races.

2.2 Turning Professional

In the event the valid FIS points list shows competitors who have in the meantime become professional, these racers shall be eliminated from the list, even if their respective National Ski Associations have not yet notified the proper authorities.

In case of re-registration as amateur by the National Ski Association, the FIS must be informed about this decision together with a new registration for the FIS points. The competitor starts without any FIS points and all previously achieved results are no longer considered in the calculation of FIS points.

3. Evaluation Period

3.1 Northern Hemisphere

The evaluation period starts 15th November and ends 30th April.

Exception: World Cup and European Cup.

In the time between the World Cup Opening and the 15th November, only races at Entry League (ENL) level may be valid for FIS points.

3.2 Southern Hemisphere

For the Southern Hemisphere, the evaluation period starts 1st July and ends 15th October.

4. Calculation Process

4.1 Race Points

The race points will be calculated according to the alpine formula.

4.2 FIS Points

4.2.1 Base FIS Points list (BL)(*)

The Base FIS Points List (BL) will be published middle of June.

4.2.1.1 The average of the best two results in each event during the past season will be used for the calculation of the BL list.

4.2.1.2 For a competitor who has obtained only one result in any of the alpine events (Downhill, Slalom, Giant Slalom, Super G or Super Combined), during the past season period, a 20% (+) of his result will be added to the result.

4.2.1.3 For a competitor who has not obtain results in any of the alpine events (Downhill, Slalom, Giant Slalom, Super G or Super Combined), during the past season period, a 50% (>) will be added to the previous BL points.

4.2.1.4 If the status as injured is approved, and a competitor has not started more than five (5) times in one event and/or fifteen (15) times across all events during the valid season 10% (#) will be added to the competitor's BL if the current points are not better as the protected points.

4.2.1.5 If a competitor drops out of the top 30 of the WCSL at the time of the BL-calculation he will receive his real FIS Points (min. 6 FIS Points).

4.2.1.6 *Correction Value (z):*

Before the allocation of points for the top 30 WCSL takes place at the beginning of the season only a correction (z) will be made to all FIS points which comprise the difference between the points of the 31st competitor and 6 FIS points for the BL.

4.2.2 Normal FIS Points list (NL)

The list number one will be published 1st July based on the BL.

4.2.2.1 The NL will reflect the average of a competitor's best two results in each event during the current period if the points are better as the BL.

4.2.2.2 If a competitor drops out of the top 30 of the WCSL during the current period he will receive his real FIS points if the calculated points are better than the BL (min.6).

4.2.2.3 *Only one Result*

- With BL points: this results will be added to his BL points and divided by two.
- Without BL points: 20% will be added to his result.

4.2.3 *Anti-Doping Rule violation*

An athlete subject to an anti-doping rule violation will have previously achieved FIS points deleted, according to article 10.1.2 FIS Anti-Doping Rules.

4.2.5 *Validity Period*

The validity period of the results is the current season.

4.3 **Integration of the World Cup Starting List (WCSL)**

The top 30 competitors on the WCSL will be allocated FIS points between 0 and 5.99. **4.3.1 Formula for the Conversion of the top 30 WCSL**

$$A_x = \frac{WCSL1 - WCSL_x}{WCSL1 - WCSL30} * 5.99$$

WCSL1 = WCSL points of the 1st WCSL

WCSL30 = WCSL points of the 30th WCSL

WCSL_x = WCSL points of the competitor in position x

A_x = According to WCSL differences converted FIS points

4.3.2 *Correction Value (z):*

Before the above allocation of points for the top 30 takes place at the beginning of the season t, a correction (z) will be made to all FIS points which comprise the difference between the points of the 31st competitor and 6 FIS points.

4.4 **Calculating Penalties**

4.4.1 *Calculation of the Penalties*

The penalty calculation shall be based on the corresponding valid lists.

4.4.2 *The Best Five Competitors who started the Race*

The five competitors with the best FIS points who started the race, are selected (classified, disqualified, DNF and did not start 2nd run). The competitors with status "DNS1" will not be considered. If the points are above the maximum value, the maximum value will be used.

4.4.3 *The Best Five classified competitors*

The five competitors with the best FIS points who are ranked amongst the top ten of the race concerned will be selected.

If points are above the maximum value or missing, the maximum value will be used for the penalty calculation.

4.4.4 *Less than five Competitors: Maximum Value*

If there are less than five competitors with FIS points amongst the first ten of the result list, or there are not five competitors who started with FIS points, then those competitors without FIS points, i.e. the remaining competitors will receive the maximum value:

Downhill: 310 FIS points

Super G: 250 FIS points

Slalom: 145 FIS points

Giant Slalom: 200 FIS points

Super Combined: 250 FIS points

If less than three competitors with FIS points are ranked within the five, which are taken into consideration, the competition is not considered. At least three competitors must have FIS points (irrespective of the number of points) and at least five competitors have to be classified.

4.4.5 *Two or More Competitors are Ranked 10th*

In the event where two or more competitors are ranked 10th in the race, they shall all be taken into consideration for the penalty calculation, as long as they are included in the five with the best FIS points.

4.4.6 *Two or More Competitors have the fifth best FIS Points*

If two or more competitors have the fifth best FIS points, which should be taken into consideration for the penalty calculation, the competitor with the higher race points will be considered for the penalty calculation. (Reason: better penalty).

4.4.7 *Calculation*

- The best five FIS points or the maximum value of the first ten classified competitors (= sum A), and the best five competitors who started in the FIS points ranking (= sum B) are added. Now the race points of the competitors with the best five FIS points are added (= sum C). The maximum value of the race points will be calculated if they are higher than the maximum of the corresponding competition (DH 310, SL 145, GS 200, SG 250, SC 250).
- Now the sum of the race points will be subtracted from the sum of the best five FIS points of the ten classified and the best five competitors who started. The resulting figure shall then be divided by ten (sumA + sumB – sumC):10)
- At the end of each penalty calculation, the correction value according to Art 4.3.2 must be taken into account. Note: If the "z" value is positive the absolute value is subtracted, and if negative then it is added. This ensures that all results can be compared to each other from list to list.

4.4.8 *Rounding Up and Down the Penalties*

The points shall be rounded down from four thousandths of a point downwards and rounded up from five thousandths of a point upward (e.g. 13.654 = 13.65 or 21.849 = 21.85).

4.4.9 *Super Combined*

FIS points are awarded for speed events (DH or SG) in all FIS events except in World and Europa Cup. Only if the competitor has completed both runs does he/she receive FIS points. The FIS point penalty will be applied taking into consideration the technical data.

If the SL run takes place before the DH or SG, competitors who DNS, DNF or DSQ will start in DH or SG with their original bib after the last competitor who qualified in the SL run.

4.4.10 *FIS points for KO*

FIS points will be calculated for the European Cup KO qualification run.

4.5 **Category Adder and Minimum/Maximum-Value**

The category adder and minimum/maximum values will be published on each valid FIS points list (1st page).

4.6 **Injury Status**

4.6.1 *Registration*

When a competitor injures himself and applies for the single penalty, the National Ski Association must apply to the FIS as soon as possible or latest 30th of April for the approval. using the official form and submitting a medical certificate. This official form and medical certificate is valid only for one season (WC: see WC Rules art 21.2)

4.6.1.1 *Conditions*

- At least 8 months must have been passed between the time of the injury and the competitors 1st start.
- Competitors must remain registered as active with the FIS to maintain injury protection.
- A competitor has not started more than five (5) times in one event and/or fifteen (15) times across all events during the valid season.

4.7 **Professional Obligations or Military Service**

If a National Ski Association submits in advance an application for a “study or military status” certifying that a racer will not be able to compete due to professional obligations (studies) or military service and has indicated why and how long the competitor was prevented from racing, the procedure will be handled according art. 4.6.

4.8 **Evaluation of Several Races during One Event**

4.8.1 *Downhill (DH), Slalom (SL), Giant Slalom (GS), Super G (SG) and Super Combined (SC)*

As part of one event, only two races per discipline and category (WC, COC, FIS) may be announced in the FIS Calendar and taken into consideration within the period of 5 days on the same homologated course. In case of a third DH or third SG being part of SC, FIS points will not be awarded for the speed event. Furthermore the organization of so-called replacement competitions held in addition to an event with two races per discipline and category, is not permitted. For such additional competitions no FIS points will be given.

For each National Ski Association, the quota for FIS races will be calculated by the FIS points of those competitors listed in the 1st FIS points list of the season, in one of the five disciplines (DH, SL, GS, SG, SC). For each National Ski Association the most favorable discipline for its competitors will be taken into consideration.

9.1.2 Top 150 (according 9.6) of the FIS Points List

1 – 6 competitors	6	places
7 competitors	7	places
8 competitors	8	places
9 competitors	9	places

9.3 **Cups**

The admission quotas for the different Cups will be fixed according to the respective special rules.

9.4 **Double Quotas for Host Nations**

As long as both nations concerned are in agreement, the nation in whose country the race is taking place may have a double quota. Higher quotas than this must be proposed by the time of the autumn meeting (Southern Hemisphere: spring meeting).

9.5 **Double FIS Quotas for the Races in the Southern Hemisphere**

In the Southern Hemisphere double quotas are valid. The Organisers however have the right to reduce quotas to the normal FIS quotas in case of high entries. The same right applies for countries from the Southern Hemisphere, if they would like a double quota in the Northern Hemisphere. The negotiations must take place between the National Ski Associations in conjunction with the Organisers concerned and are valid only for events specifically agreed. A copy of such an agreement must be shown to the Technical Delegate and provided to FIS.

9.6 **Competitors who are no Longer Active**

After one year without results in a event, the FIS points will be specially marked on the FIS points list. (Art. 5.2).

If a competitor has no results in at least one discipline he will no longer be counted in the calculation of the quotas, however they have still the right to start according to their FIS points.

9.7 **International Participation in National Championships**

9.7.1 *Conditions*

National Championships will only be considered "international competitions" and taken into consideration for the FIS points when all conditions for FIS races are followed and registrations of foreign National Ski Associations are accepted according to the valid FIS quota.

The organizing National Ski Association is obliged to accept up to 25 foreigners. However they may allow more than 25 foreigners to start by applying the quota of each country.

9.7.2 *Official channel*

National Ski Associations wishing to enter their competitors in the National Championships of another country should apply directly to the associations involved until at latest one week before the beginning of the competitions/training. The FIS may intervene to resolve any differences of opinion which may arise.

9.8.1 *The quotas of the National Ski Associations for participation in FIS Calendar competitions are as follows:*

9.8.1.1 *Olympic Winter Games and FIS World Ski Championships*

According to the rules of the International Olympic Committee and the Rules for the Organisation of FIS World Ski Championships.

9.8.1.2 *FIS World Cup, FIS Continental Cups and FIS Races*

9.8.1.3 *Special Quotas*

The FIS Council can allow special quotas for certain countries and regions. National Ski Associations direct specific requests to the FIS prior to the autumn meeting. For the Southern Hemisphere: spring meeting.

9.8.2 For all alpine competitions the number of competitors should not exceed 140. If by respecting the authorised national quotas and the basic quotas of the organising nations the number reaches more than 140, this is permissible. If the number of competitors does not reach 140, the organising National Ski Association may fill to the maximum of 140 competitors with its own competitors.

9.9 Over Quota

Every NSA has the right to start the maximum number of racers allowed by their quota only. For Ladies competitions see art 9.2.

9.9.1 Quotas must be supervised at the Team Captains meeting and before the draw by the TD, the race secretary and the respective Team Captains.

9.9.2 If a competitor is entered and actually starts and consequently exceeds the nation's quota he will not be considered in the calculation for the final result or for the penalty calculation if this breach of rules is discovered before the official results are published. He will be shown in the results as DSQ (Over Quota). In the event that such a breach of rules is only found after the submission and publication of the results, the results will be re-calculated at the FIS Office following the removal of any over quota athletes who will be shown in the results as DSQ (Over Quota). This procedure will be handled at the FIS Office and confirmed by the Classification Sub-Committee during their next meeting.
