The second place took Katerina Neumannova (CZE) only 1.4 seconds behind Roponen. Another athlete from Finland, Aino-Kaisa Saarinen finished third, 10.4 seconds behind the winner.

The World Cup leader and winner of the first Viessmann FIS Tour de Ski, Tobias Angerer (GER), took the third place, 1,1 second behind Legkov. During the men's race it was sometimes snowing quite heavy what makes not easy conditions.

Tobias Angerer is clearly with 662 points in the lead in the overall World Cup. The Distance World Cup is leading by Legkov (247points) ahead of Angerer (212 points) and the Norwegian Eldar Roenning (200 points).

The people from Rybinsk made a great effort to host this World Cup. Together with about 2.000 volunteers the Organizing Committee prepared the 2,5 km course with ice blocks from the Volga and took some snow over it. Despite of the very bad weather situation with a lot of rain in the last days they were able to prepare the course in a good way.

**Quotes:**

**Riitta Liisa Roponen (FIN):** "It was a very good day for me. On the last lap in the uphill, I was thinking that now I have to going for the victory and started my attack. It is my first World Cup victory and I'm very happy. My skies were also very good prepared and the Organizing Committee did there best to prepare the track in a good way."

**Katerina Neumannova (CZE):** "After my health problems at the end of the last year and the beginning of the new year during the Tour de Ski I felt now very good. I was skiing behind the leader of the races but I wouldn't ski in front. At the end Riitta Liisa was too strong and I lost some meters. But for sure I'm satisfied with my race. It is nice here in Russia. I took part now for the first time in a World Cup race in Russia. Everything is arranged for us, even if not all is perfect they try here there best and are always very friendly!"

**Aino-Kaisa Saarinen (FIN):** “It was a relaxed and a very good race for me. In the last lap the gap between the two girls in front, Riitta Liisa and Katerina, was at the end too big to close but I’m satisfied that I could reach the podium in the today’s race. It is the first time that I reached the podium in a distance race in free technique, normally I’m stronger in classic style.”

**Alexander Legkov (RUS):** “ I felt not so good in the last day’s. I had some problems with the back. Finally, it was a good decision to start here in front of so many fantastic spectators. During the last downhill after my attack, I was waiting for an athlete who will ‘catch’ me, but nobody was coming. So now I’m happy that I could realize a World Cup victory and specially a World Cup victory in Russia. ”

**Emmanuel Jonnier (FRA):**”The course was not easy today. It was snowing quite heavy during the race. But I’m very satisfied about my first podium place. The problems in the morning with the travel from Rybinsk to the ski stadium didn’t influence me and it was for all the same.”

**Tobias Angerer (GER):** “In the beginning of the race I was tired but then I found my rhythm. My ski’s were good and I could follow the leading group. Because of a traffic jam we (the men’s athletes from Russia, Germany and France) had to walk the last 4 kilometres from Rybinsk to the stadium. That was my warming up. The Russians did a great job here in the stadium, we are happy that we could ski on such a place and hopefully we will coming back next year for another World Cup race.”
