WC Liberec FIS World Cup Nordic Combined

FIS World Cup Nordic Combined in Liberec (CZE), February, 17th 2008

Due to too strong and changing wind, today's competition in Liberec had to be cancelled. The competition will not be rescheduled in Liberec.

"We were not able to fulfil one round in the same conditions. The wind changed so much during the round that we could not finish the competition round. When we started the jumping for the second time, the wind directions changed again in the middle of the round so that we were not able to finish it. The conditions changed so much and fast that we did not see any possibility to hold the competition. Therefore we had to cancel the World Cup today." explains FIS Race Director Uli Wehling the situation at the jumping hill at Jested.
