## TEAM CAPTAINS MEETING

Team Captains Meetings are to be held at Mt Buller Race Club building, top of Summit Road Mt Buller at 6pm, the night before each event.

## PRIZE GIVING

**Isft. TMM Slalom Races:** Presentation Tuesday 31<sup>st</sup> of July, 7pm at the Village Square (followed by a public bib draw for the ANC races)

**ANC Races:** Presentation each day after the race in the finish area

Awards will be presented to the top 3 female and male competitors. Achievement awards will be presented for the fastest Junior 1 and Junior 2 competitors of the TMM FIS races.

## TOM MATHIAS MEMORIAL AWARD

Tom Mathias started training with the club in 1998 and continued on to have an illustrious career in the sport. He reached an elite level and was a member of the Australian National Ski Team. He was an extremely valued member of the club and as well as competing was an extremely bright young man studying at The University of Melbourne.

Tom had a long battle with his illness (melanoma cancer) and he approached it with the same guts and determination he had learned to use in his training and racing career.

Mt Buller Race Club is holding these slalom races in memoriam of Tom, who passed away at the young age of 23. The "Tom Mathias Memorial Award" will be awarded to the male competitor with the fastest combined time of both races (4 runs total).

The races are going to be a great opportunity for many of his mates to honor him in a fitting manner and to support the isft. ("I Ski For Tommy.") Foundation. Check out [www.isft.com.au](http://www.isft.com.au)

## INFORMATION – GETTING TO MT BULLER

Mt Buller is only a short 3-hour drive from Melbourne via the Hume Highway or Maroondah Highway, and the scenery on the way is well worth taking your time to see and enjoy.

No matter which route you take from Melbourne to Mt Buller you will eventually come to Mansfield - the closest major town to the Resort. Pass through Mansfield and follow the signs to Mt Buller.

At the base of Mt Buller (Mirimbah) you will be required to stop at the gate entry point and pay a fee to enter the Resort. Once through the gate entry point, continue up a well-maintained road to Mt Buller.

As the Mt Buller Village is located above the snow line, only a limited amount and type of cars are permitted to drive into the Village (access during winter is restricted to residents, property owners and mountain staff). Most cars are required to stop at a car park located approximately 1.5km below the Village. At this point, you will be met by an attendant who will guide you to a parking spot.

From here, you can either jump on a free shuttle bus (for day visitors) that will take you up into the Village centre or take a 4WD taxi (for people staying overnight) which will take you to your accommodation. Once you're in the Village, there is a free Intra-Village Shuttle Service that features three different routes to get you around the Village during your stay.

***NOTE: Please inform the ROC if you are traveling to the mountain on a daily basis as shuttle buses and taxis do not operate early in the morning.***

### Wheel chains - day visitors

Mt Buller's wheel chain requirements are decided on a daily basis and are determined by weather forecasts and existing road conditions. Chain requirements may vary between 2-Wheel Drive (2WD) and 4-Wheel Drive (4WD) and All-Wheel Drive (AWD) vehicles, as each of these types of cars react differently to snow and icy road conditions.

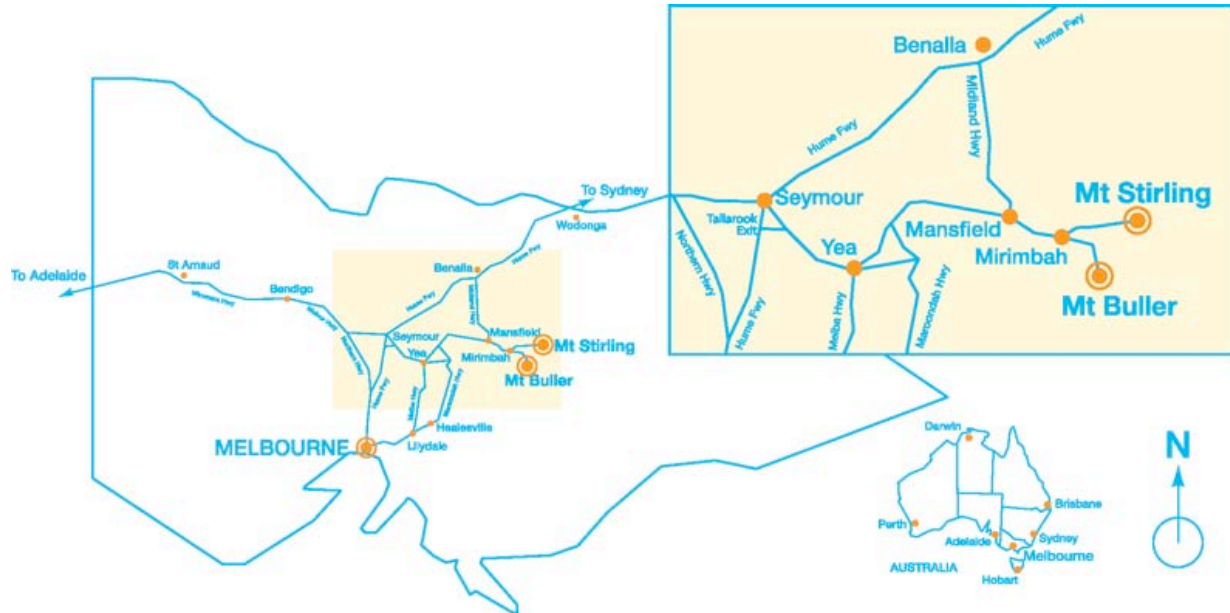

Daily wheel chain requirements are communicated via the local accommodation providers, retail outlets and authorities who come into contact with people travelling to the Resort. They also appear on large flashing roadside billboards as you enter and leave Mansfield and on the daily snow report. Contact Resort Management directly on (03) 5777 6077 for the most current requirements.

### Wheel chains - overnight stays

If you are staying in the Resort overnight or traveling beyond the Skating Rink car park area and past the snowline, you are required to carry chains at all times as weather conditions can change unexpectedly throughout the evening.
