**Note:**

**How point scores are calculated**

A competitor is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 2.0 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. The gate and/or wind compensation points are added to, or subtracted from, the total points. The gate compensation can be applied only within a group.

**Calculation of the Time Difference in Team Events**

The amount of time that a competitor must wait before starting is calculated by converting the number of points behind into time. Each point behind is equivalent to 1.333333 seconds of wait time, 45 points behind means a competitor starts one minute later than the competitor in front of him.
