- Legal regulation: sec 19 Art 1 UStG (*Austrian Value Added Tax Act*): If the supplier of the service (=athlete) has neither domicile (seat) nor residence or a fixed establishment regarding the service supply in Austria, the service recipient (= organiser, e.g. ASVG, ASN) is liable to VAT. Ladies and Gentlemen !

The trouble-free operation of radio systems and telecommunications equipment within Austria is our concern and our statutory duty under the Telecommunications Act 2003 (TKG 2003).

To ensure trouble-free operation of radio systems, make sure that all used frequencies are coordinated and the operation of such radio systems are approved by the Telecommunications authority. Especially at major events in metropolitan areas, we need our regulatory law, and our right to intervene if necessary to comply consistently with unauthorized radio systems operated in the interest of all spectrum users.

The operation of radio stations in Austria is generally subject to approval. Excluded from a general understanding that only permits individual authorized radio systems. For example CB-radio (FSB-LN001), SRD-radio (FSB-LD074) or radio microphones (FSB-LD048).

Please remember that the operation may cause radio systems without frequency coordination and upright operation permit harmful interference to other stations and therefore inadmissible. We are mandated by law to take illegally operated radio systems out of service and confiscate in a row. Thereupon, an administrative **penalty procedure is done with a fine of up to € 4 000,-** including the forfeiture of the radio system to the public authority (§109 TKG).

The following are the relevant provisions under the Telecommunications Act 2003:

§ 74	Installation and operation of radio systems
§ 81 und 82	Authorisation procedure, Fees
§ 86	Scope
§ 87	Searches
§ 88	Supervision measures
§ 109	Administrative penal regulations
§§ 112 und 113	Telecommunications authorities and Competences
§ 114	Participation by officers of the law enforcement agencies, enforcement

We urge all users of radio equipment to contact regarding the use of these facilities in conjunction with the Telecommunications Authority.

The instructions of the telecommunications regulatory bodies of the radio monitoring Graz is to be **followed without**.

HR Ing. Dr. Rudolf Perl  
 (Head of Telecommunication Authority)
