August 7<sup>th</sup> – Departure Day

The slopestyle event will be combined Snowboarders and skier's competitors as detailed.

## **CERRO CASTOR**

---

Cerro Castor is located 26 km from the city of Ushuaia, Argentina over Route No. 3, Km 26 readily accessible through a fully paved road and with regularly shuttle transfers from the city to the resort.

It is the most exclusive Argentinean ski resort. As it is the southernmost tourist spot on earth it has characteristics that render it unique and different. Skiing at Cerro Castor means to enjoy the best snow quality, due to the mountain orientation (south mountain slope) and its extreme location (parallel 54, like Moscow in the northern hemisphere). In winter season, the most common and safe way to arrive to the city of Ushuaia is by plane. It will only take you three hours and twenty minutes from Buenos Aires by regular daily flights.

Cerro Castor has 31 snowmass trails, a boardercross track and a snowpark with a total of 30 km of trails. Many of the trails are harmonized by the International Ski Federation (FIS).

Snowmass: 600 hectares. / Vertical drop: 800 meters

Artificial snow

It has an artificial snow system in place extending from the base to an Altitude of 480 m, up to the Intermediate station of Chairlift "Las Piedras," with 17 (Technoalpine) snowguns every 200 meters. This ensures the correct snowmass down to the bottom during the entire season.

### Lift facilities

Lift facilities are strategically located and fitted with world class technology. They were conceived and located for an optimum use of the entire mountain, broadening the snowmass and enabling to carry up to 9,500 people per hour. The resort has 5 lift facilities with 4 people seat ski lifts and 6 platter lifts: 3 Teleskis and 4 Magic Carpets.

### Trail Flattening

Trails are maintained with 6 snow-flattening Kässbohrer Geländefahrzeug AG machines, ensuring an even surface, including walls, drops, slopes, and hard-to-reach places. At the bottom, we use a special machine that redistributes and evenly spreads the snow, besides, cross-country skiing trails are appropriately maintained and conditioned.

### Registration Deadline

---

On site registration will close at 12:00PM July 31st, 2017.

Online registration will close at 12:00 pm July 31<sup>st</sup>, 2017
