

COVID-19 team information for tests and test protocols Update from 21 December 2020

With this document we would like to inform all teams again about **COVID-19 tests** and **COVID-19 test results** for the **FIS Freeski and Snowboard World Cup Kreischberg** taking place between 5th and 10th January 2021.

- Every team member officially named by the respective national ski association via the FIS online system is obliged to present a **negative PCR test not older than 72 hours at the accreditation** (max. 72h between taking the sample/swab and collecting accreditation). If you do not have the opportunity to test, the Mobile LAB Truck at Kreischberg (near Kreischberghall) will be available for PCR tests on January 4th, 2021. For the testing please register via the following link and enter all of your data: digital.test-mobil.com/.
 - Working times:
 - Monday, January 4th, 2021 from 11 a.m. to 5 p.m. (for arrival tests that do not have the option of testing)

The result is sent on the same day. Costs EUR 85 per test which carry by the team themselves. After receiving the negative test result, the accreditation can be picked up.

- Due to the long presence of the team members at Kreischberg, a **follow-up test is mandatory for all team members on Thursday, January 7th, 2021 or Friday, January 8th, 2021 in the LAB truck at Kreischberg.** To do this, please register using the following link and enter the data already: digital.test-mobil.com/. Testing can take place at the following times.
 - Thursday, January 7th, 2021 from 12 a.m. to 6 p.m.
 - Friday, January 8th, 2021 from 12 a.m. to 5 p.m.
- The test result is sent on the same day. Costs EUR 85 per test which carry by the team themselves. This test can be used also as an “exit or onward journey test”.
- **The presentation of a positive COVID-19 antibody test will not be accepted.** People who showed a positive PCR test in the past 3 months need to upload a new PCR test (not older than 72h) to the FIS Passport. If the test result is positive and the CT value >30, accreditation is possible. **People with a first time positive PCR test within the last 2 weeks prior to arrival are not allowed to participate in the event!**
- **Tests conducted outside Austria:** The PCR test presented needs to be recognised by the health authority of the respective country! It is not necessary to send the information about the laboratory in advance for approval!
- **For all PCR tests it is necessary to indicate the time when taking the sample and the name and date of birth must be visible on the test.**
- In case of unclear PCR test results, the LOC reserves the right to ask you to take a new test at the LAB truck.
- Countries with current travel restrictions for entry into Austria can find information on the website of the Austrian Foreign Ministry at <https://www.bmeia.gv.at/> or at the Austrian embassy in your country.
- **The COVID-19 test protocol of every single team member needs to be uploaded to the FIS Passport system at least 12 hours prior to the collection of the accreditation.**

- Contact person
 - If you have any administrative questions, please send an email to tinagreul@gmx.at.
 - If you have any specific questions related to test protocols and testing, please send an email to Dr. Wolfgang Schobersberger: wolfgang.schobersberger@tirol-kliniken.at.
- **For the Single Point of Contact (SPOC) dial +43 664 35 51 045 - it can be reached from 7 a.m. until 10 p.m. If anyone in the team shows COVID-19 symptoms, please contact the SPOC immediately.**
- **COVID-19 suspect case management:** If there is a COVID-19 suspect case, please contact the SPOC. Appropriate rooms will be available if an isolation is necessary. In case of a positive test result, the authorities decide on possible quarantine of further people in the surroundings (e.g. team members).
- **Furthermore, the medical confirmation below (according to Appendix 1), which is required by the authorities in Austria, must be completed and signed by each team at the accreditation.**
- **Daily health check:** Prior to every training session and competition, every team member must fill in the daily health check and provide it to the LOC. **Therefore, please scan the QR code of your accreditation every morning and fill in the respective questionnaire online.** **This is mandatory for all team members!**

Annex 1 – Medical confirmation - one time fee on arrival at the accreditation

Nation: _____

Date: _____

- Has anyone from the team had any cold symptoms in the last 14 days (cough, runny nose, sore throat, difficulty breathing, loss of taste or smell)?

Yes

No

- Has anyone from the team had any of the following symptoms in the last 14 days?

-fever
