COVID-19 Health- & Safety Concept

The following concepts were developed by the LOC for the Continental - Cup in Brotterode according to the guidelines of the German Ski Association (DSV) and in close cooperation with the local health authorities (district Schmalkalden - Meiningen) and the office of the mayor of the town Brotterode - Trusetal

As of the present date, the concept guidelines are as follows:

- limiting physical contact and interactions, positioning and separation of hygienic areas
- closed areas with strict health and safety protocols
- compliance to physical distancing protocols and protective health measures
- wearing a mask (FFP2 without valve) is always mandatory, in both indoor and outdoor areas, with the exception of fixed seating and sporting activities only
- testing policy for all persons in the organization, sports and media
- no visitors, guests and spectators

Hygienic Areas

Organisation

- LOC

- distance measuring staff
- Red Cross/ medics
- Live Streaming
- Shuttle driver

controlled and monitored interaction with the other areas
FFP2 masks required

Sport

- athletes
- service team
- sport employees
- coaches & team
- inrun staff

controlled and monitored interaction with the other areas
FFP2 masks required

Judges Tower

- Jury
- FIS/DSV employees
- distance measuring Ewoxx
- Presenter

controlled and monitored interaction with the other areas
FFP2 masks required

Medien

- press
- radio reporter
- TV reporter

controlled and monitored interaction with the other areas
FFP2 masks required

Inspection Concept

Infrastructure

- all areas are separated with fences and gates
- entry and passage controls to all areas by color coding on accreditation
- security personnel is marked separately with security shirts
- in all areas a distance of min. 1,5m has to be kept, in closed rooms min. 4m² per person
- allocation of an isolation area in case of COVID case suspected
- placement of information signs, directions and hygienic instructions
- obligation to wear FFP2 masks in the toilets, disinfection assured after every 3 hours
- volunteers without accreditation (e.g. German Armed Forces, police) are not allowed in any of these areas, only outside of the event arena , in order to reduce the amount of security / ID checks

Inspection Concept

Accreditation 1/2

- strict compliance to the requirements of the Ministry of Health and the RKI
- negative Covid-19 test (dual-target PCR test) not older than 72 hours before the start of the event for groups Sport and Judges Tower
- negative Covid-19 test (dual-target PCR test) not older than 72 hours before the start of the event for the organization groups: LOC, Live Streaming, shuttle driver, several volunteer staff
- negative Rapid-Antigen-Test on Friday 19.02.2021 for the organization groups: hill preparation skiing crew, outrun staff, distance measuring staff, several volunteer staff

Inspection Concept

Accreditation 2/2

- requirement of a completed and signed Covid-19 questionnaire from all participants in order to receive accreditation or FIS-Passport for the teams will be accepted
- the LOC recommends that all persons participating at the event use the Corona warning mobile app surely
- further details on the testing guidelines for the event are described in the annex to the accreditation questionnaire
- Documentation of the accreditation documents according DSV/FIS requirements by assuring private information protection dutys

Targets and Basic Principles:

Wearing a mask is required any time inside buildings or at the outside!

FFP-2 mask without valve!

Use hand disinfectant frequently!

Keep your distance from other people, at least 1.5m!

Targets and Basic Principles:

Protect the health of the participating athletes and all persons involved in the event & Ensure that competitions can proceed as planned!

Keep Distance

Protect other people by keeping enough distance. Keep your distance when standing in line.

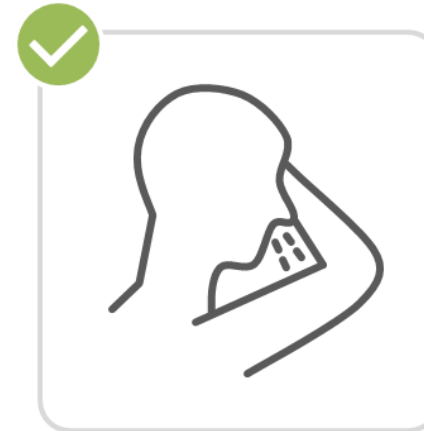

Wash Hands Properly

Wash your hands for 20 seconds
 Soap and water are most effective
 Use hand sanitizer when soap and water are not available

Do not shake hands and avoid physical contact

This does not represent impolite behavior

Coughing and sneezing into a tissue or the crook of your arm

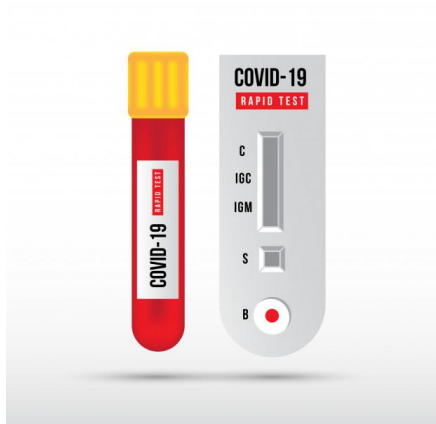

Throw away paper tissues immediately after use AND wash your hands afterwards effectively.

Stay at home with fever and cough

Contact your regular doctor by phone

Targets and Basic Principles:

Covid-19 test required to obtain accreditation. It is part of the hygiene concept.

Restriction:
Stay only in the specified hygiene area. No unplanned or unsafe outside contacts

Transparency:
Immediately notify stadium medical staff /hygiene coordinator in case of symptoms and report at-risk contacts

Targets and Basic Principles:

Not following the health and safety policy and the rules presented in this hygiene concept will lead to immediate exclusion from the event.

**The success of this concept depends on YOU and
HOW EACH INDIVIDUAL HANDLES AND ACTS RESPONSIBL AT ANY TIMES!**

Targets and Basic Principles: in the specific areas!

Athletes camp and wax tent (red area):

- all areas will be organized in such a way that the flow of people is limited as much as possible
- Closed and heated team tents each of 25m² are available for all teams
- one open wax tent of approx. 72m² with privacy and health safety partitions is available
- limited number of people in each closed building, min. 4m² per person
- restricted use of these areas to the members of the competition and the organizer
- hand disinfection will be provided in each team tent
- cleaning of the inventory of the tents will be done after each team rotation

Targets and Basic Principles: in the specific areas!

Skijump Inrun & Exit areas / mixed zone:

- all areas will be organized in such a way that the flow of people is limited as much as possible
- minimizing the number of people who need to be in the exit area / mixing zones.
- limitation for number of people in each area to min 4m² per person.
- athletes do not change clothes in the Inrun and Exit area

Targets and Basic Principles: in the specific areas!

team catering:

- no food will be served to the teams by the organizer at the sports facility
- catering (breakfast/lunch/dinner) will be provided in the individual accommodations
- the hotels are responsible for the compliance with the valid hygiene regulations of the Local Health Authorities and the German RKI
- cold beverages will be available in sealed bottles at the teams area
- the teams are responsible for their own hot drinks, the usage of personalized drink bottles is recommended

Targets and Basic Principles: in the specific areas!

Accommodation & Catering Teams and Jury:

- if possible, single rooms required, in the case of double rooms with an appropriate distance between two single beds
- a cleaning/disinfection plan according to valid hygiene regulations is necessary
- no interim cleaning of hotel rooms during the stay
- sufficient isolation rooms are to be provided
- rules for the use of shared facilities (meeting rooms) must be established
- ensuring that team dining areas are separated from other hotel guests
- preparation of the dining areas in the dining room before the teams arrive
- enough water / drinks at the tables / supply of hot drinks to take out must be assured
- avoiding self-service at the buffet / food need to be served by staff at the buffet or table service

Targets and Basic Principles : in the specific areas!

Catering Organisation, Jury, media:

- Cold beverages are available in sealed bottles
- hot drinks will be served by separate staff in compliance with the hygiene guidelines
- only pre-packed snack bags will be handed out by the organizers at the sports facilities for the Organization and Jury
- there will be no catering

Targets and Basic Principles: in the specific areas!

Judges tower:

- limit the number of people in each building area to min 4m² per person
- provision of hand sanitizer
- regular ventilation of the rooms every 30 minutes

Targets and Basic Principles: in the specific areas!

Shuttle:

- the wearing of an FFP2 mask without valve is required for the driver and all passengers
- permissible in the passenger car are 2 guests wearing FFP2 masks without valve
- permissible in the van are 6 passengers wearing FFP2 masks without a valve
- disinfection of the car after each change of passengers by the driver
- short shuttle ride with open window when ever possible

Targets and Basic Principles: in the specific areas!

Accreditation Office:

- accreditation will be issued centrally in the "Haus des Gastes" in Brotterode
- for the teams, accreditations will only be collected by one person per team
- for the organisation staff, persons will be defined who will collect the accreditations
- Jury and media will receive their accreditation individually
- hand sanitizers will be available
- compliance with hygiene guidelines is assured
- regular disinfection of these areas is organized

Targets and Basic Principles: in the specific areas!

Radio transceiver equipment use and distribution

- handing out personalized walkie-talkie
- recharging organized centrally in compliance with hygiene guidelines
- disinfection of radios and associated communication equipment is handled centrally
- handing out, collection and disinfection is carried out by one dedicated person
- During the event on both days the radio transceiver equipment will stay at each person to whom it was handed out, only rechargeable battery will be rotated

Targets and Basic Principles: in the specific areas!

Team Captains Meeting TCM:

- execution of TCM takes place at the town hall building council chamber at district Trusetal
- compliance with hygiene guidelines is assured
- during the TCM a FFP2 mask without valve has to be worn
- TCM reserved for the LOC, Jury, Technical Delegates, Judges, Distance Measurement ewoxx, 1 representative per team
- access control via accreditation
- number of participants will be reduced to a minimum
- cold beverages will be available in sealed bottles
- there will be no catering

Targets and Basic Principles: in the specific areas!

Mixed zone / media area:

- limited number of accredited journalists only
- separation of distance zones in the interview area
- media representatives are responsible for observing hygiene regulations for their own equipment
- press conferences will not take place

Targets and Basic Principles: in the specific areas!

Athlete presentation & start number handover :

- no athlete presentation
- the start numbers will be handed out in number bag to the team leaders (1 person per team)
- handover by an assigned person

Targets and Basic Principles: in the specific areas!

Winners' Photos / Official Winners' Ceremony :

- winners ceremonies only in the outrun after the competition
- physical distancing between athletes and between athletes and journalists during podium photos mandatory
- no handshaking at the award ceremony
- trophies and presents are taken by the athletes one by one from a prepared table ore the podium
- disinfection and setting up of trophies and gifts by an assigned person is assured

Targets and Basic Principles: in the specific areas!

Isolation Area:

- in the case of a suspected corona infection, the person is subjected to a mandatory rapid-antigen-test at the stadium COVID-test room
- the person must stay in an isolation room until the test result is carried out
- the room is minimally equipped to reduce the need for follow-up disinfection
 - chairs only
 - window for ventilation available
- if the test is positive, the person must leave the event site immediately and return to their own home or hotel
- All necessary information to the local health authorities will be provided by the LOC Health Coordinator
- Further detailed information and quarantine orders will be given afterwards directly by the doctor on duty of the local health authorities department
