### **RESPONSIBILITY AND DISCIPLINE OF ALL PERSONS**

In order to ensure the FIS Roller Ski World Cup Banska Bystrica, it is the responsibility of every person to adhere to the policy, follow all procedures and instructions and behave in a disciplined manner at all times! All participants are required to fully comply with the respective Covid-19 policy! A breach of protocol will lead to withdrawal of the accreditation!

### **INDOOR SPACES**

Meeting rooms, accommodation, and meals, 2m physical distance. Windows and doors remain open to allow the flow of air through rooms and common indoor spaces. Air conditioning will be not used.

### **VACCINATION**

All stakeholders must follow systematic pre-arrival testing and onsite testing strategies, consequent wearing of masks, keeping distance to others, avoiding closed rooms and appropriate hygiene measures such as hand-washing - must be maintained by vaccinated as well as non-vaccinated individuals! No difference will be between vaccinated, and non-vaccinated individuals. Vaccination is essential for EU green pass issue.

### **BUBBLES**

OC is creating various types of bubbles:

All stakeholders who are being regularly tested and disciplined to follow rules and regulations will be limited to interact with persons not being subject to strict protocols.

OC is using separations:

Team & Staff group + LOC persons working with teams

LOC working group

OC is providing accommodation bubble for all tested persons from Team & Staff group + LOC persons working with teams.

- hand washing
- no hand shaking, no high five, no hugs
- respiratory hygiene
- 2 m distancing
- mask all the time

### **ACCOMMODATION**

- teams will be accommodated on the same floor
- access to hotel facilities through stairs (to avoid elevators)
- try to separate from other hotel guests
- single and twin-bedded rooms
- additional cleaning, and disinfection prior to arrival and during the stay
- hand disinfection and paper towels at multiple locations
- cleaning of rooms avoided when team members are in the accommodation (avoid contact with cleaning personnel)
- provision of isolation rooms

### **MEALS**

- separate dining rooms /areas from other hotel guests with sufficient space
- cleaning the table preferably after dining when an entire table has left, not during the meal

### **WEARING A MASK**

Masks should always be worn when close contact with others is possible, and is important in many situations (e.g closed rooms, distancing not possible, contact with people outside the bubble). This equally applies to vaccinated persons! For closed indoor spaces, (at least) medical masks are preferred. Participants should ensure they have sufficient masks for the duration of the event; they should be replaced as soon as they become damp and (if re-usable) should be washed daily. A face shield is not an acceptable alternative to a mask. If athletes leave the exit gate/field of play, masks should be worn. This includes leader boards and, mixed zone, changing areas and restricted areas. Athletes should wear a mask at all times during official ceremonies.

### **PHYSICAL CONTACT ADVICE**

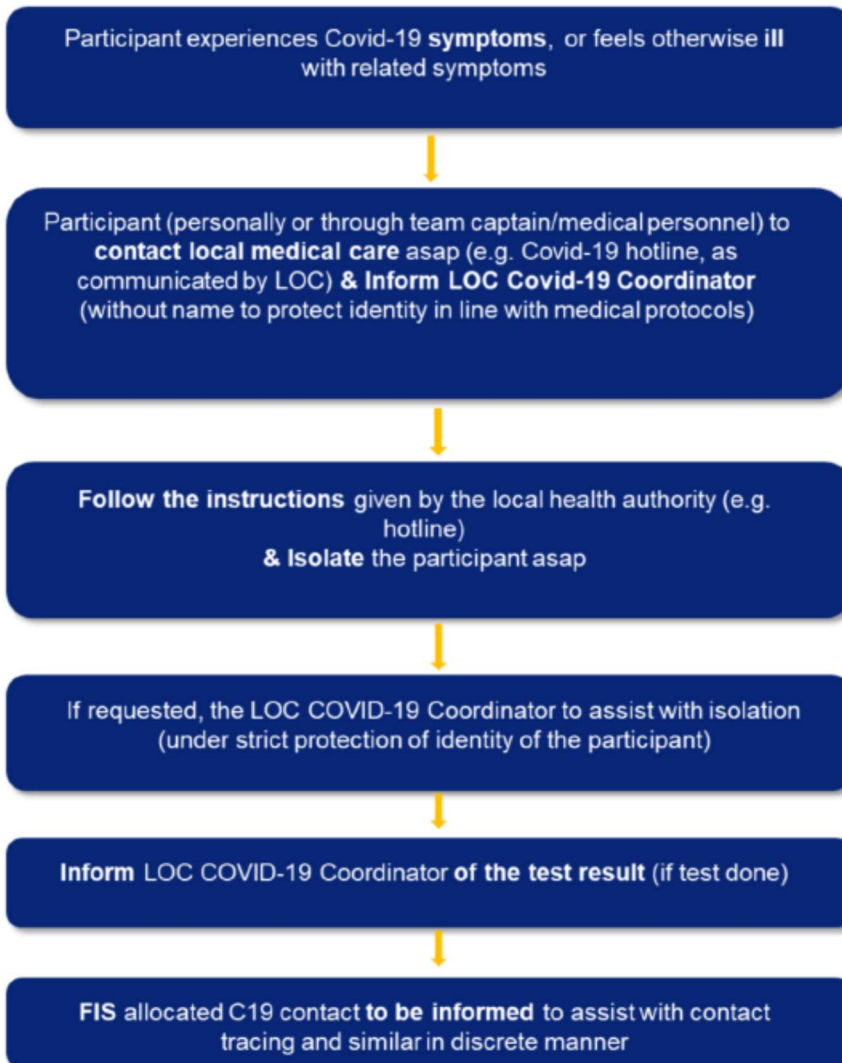

It is important that every participant maintains physical distance from anyone other than those in the own bubble, and should aim to minimize contact with others for 14 days before travel (if applicable), respectively during the competitions.

### **CEREMONY:**

Athletes should not shake hands, hug, etc. with the other athletes on the podium. Of course, safe gestures of respect: elbow bumping, nodding, bowing etc. are encouraged. Athletes should maintain all social distance guidelines until they leave the ceremony area. The leader bib will be handed to athletes on the podium, or before the ceremony, for them to put on themselves. There will be no joint pictures on the top step of the podium, all athletes should remain on their step through the ceremony. After the ceremony, the mask should be put back on through the rest of the accredited zones.
