## 1. Greeting

### Dear members of the FIS Ski Jumping Family,

The German and Austrian Ski Federation represented by the LOC's of Oberstdorf, Garmisch-Partenkirchen, Innsbruck and Bischofshofen give you a warm welcome to the 70<sup>th</sup> Four Hills Tournament.

We all hoped to have "normal" conditions in this the FIS Ski Jumping World Cup 2021/2022 season but as you all know also this year we have to face specific restrictions for all of us this winter again. But like we did last year we're doing everything we can to have a great and safe competition.

To achieve the highest possible safety while retaining as much normality as possible we're also counting on you to stick to the necessary regulations. You'll find the most important information and guidelines for athletes, coaches, team members and service people on the following pages.

Please read all the regulations accurately and don't hesitate to ask questions if something is unclear.

The guidelines follow the recommendations of the German and Austrian Health Department and the FIS COVID-19 Protocol. Due to the fact that there are unfortunately different regional regulations in the both countries or even in the different regions within a country there unfortunately can't implement the same regulations for the whole tournament, but we tried to keep it as simple as possible.

It comes down to every one of us to minimize the risk of infection for our ski jumping family for what reason we appeal to every one of you to follow the guidelines and take self-responsibility inside and outside of the venue.

Due to the COVID-19 Pandemic, the **70th Four Hills Tournament** must be executed with high safety measures according to the current regulations of the German and Austrian health department and the FIS COVID-19 Prevention Protocol.

We need you to forward this catalog of measures to all necessary team members (athletes, coaches, service people, NSA, Official and other responsible persons) which will be registered via FIS platform. By registering for this event, every team member accepts all the measures in this catalog.

In case of any changes the LOCs will provide updated information on time.

Thanks for your support and keep it up!

German Ski Federation, Austrian Ski Federation &  
The Organizing Committees of the Four Hills Tournament
