## Medical Service & Health protection plan

Concerning COVID-Restrictions: We implement the requirements of Switzerland. At the moment we have no restrictions.

## Regulations of radio equipment/Radio Frequencies

Since 2013 the legislator has restricted the usable frequency range for certain wireless devices multiple times and exempted from the license-obligation. This increases the risk of interference between wireless devices at large events.

In order to guarantee the same level of production reliability in the future and enable everyone to enjoy interference-free operation, SRF will coordinate the frequencies on behalf of the event organiser at the Tour de Ski Val Müstair 2022/23.

Registration obligation for wireless devices:

For the above-mentioned reasons, all users must register their wireless devices in advance via webtool FreqCoord. Wireless devices may not be used if they have not been registered.

Mandatory registration:

- From 30 December 2022 – 1 January 2023
- In the following areas: at the racetrack, in the finish area and everywhere you need access authorisation (accreditation) from the event organiser.

Devices:

The following devices must be registered.

- Wireless microphones
- In-ear monitor systems
- Wireless intercoms
- Walkie talkies (PMR)\*
- Telemetry systems\*
- Wireless cameras\*
- Devices using Dect-Standard (e.g. Sennheiser AVX)

\* A licence from the Federal Office of Communications (OFCOM) must be available upon registration. Otherwise an application form can be generated during registration process on FreqCoord.

Registration process:

## Deadline: 23 December 2022
