**Note:**

**How point scores are calculated:**

An athlete is awarded 60 points for jumping the K-point distance. For every metre more or less than the K-point, an athlete has 2.0 points added or subtracted from his total. In addition, athletes are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the athlete's points for distance. The gate and/or wind compensation points are added to, or subtracted from, the total points.

**Calculation of the time difference in individual events:**

The start time difference for each athlete is calculated by converting the number of points behind into time. Each point behind is equivalent to 4 seconds; an athlete 15 points behind will start with a time difference of one minute
