ENTERTAINMENT & SIDE EVENTS

Work in progress - we will inform you about official side events at a later stage.

SUSTAINABILITY

To create a more sustainable event we would like you to consider the following points and taking action where possible:

Mobility:

Please plan your travel as ecofriendly as possible. We can support with shuttles from Innsbruck airport and train station if necessary. Please use public transport, car sharing and reduce individual traffic.

Catering:

We will use local organic and seasonal products to reduce transport routes and add local value. Less meat, more vegetarian options will be the focus. refill stations for water, tea and other drinks will be provided on site. Please bring your own drinking bottle. Reuseable and/or biodegradeable dishes will be provided just if necessary.

Trash and Recycling: "less is more"

We will work towards minimizing disposable packaging, disposable tableware and advertising flyers. Everybody can support this with bringing his personal reuseable dish (Plate, Bottle, Cutlery) to the event area. We will also implement waste separation at the event / athletes area.

Awareness:

"Do good and spread the word". We are aware of that traveling the world as athletes and being an active part of winter sports industry comes with a major impact on the environment. And the efforts above should not be about greenwashing this whole situation but more about being a good example in areas where we can do better. Join the movement of a more sustainable event and let's make people aware of the measures taken, and promote this through your channels.
