**Note:** **Calculation of the time difference in team events:**  
The start time difference for each team is calculated by converting the number of points behind into time. Each point behind is equivalent to one second; a team 60 points behind will start with a time difference of one minute.  
**Wave:**  
To prevent too large start time differences, the Jury can decide upon the use of the "wave start". At the end of the Cross-Country race, the actual time difference after Ski Jumping will be adjusted accordingly.
